Subject: NARCAN

Hi All,

Wondering if any of your teams carry NARCAN? It is the Nasal Spray used for the treatment of an opioid overdose. I know that many law enforcement agencies train and equip their officers to carry and if needed administer. It seems like a good idea to me if the liability issues are manageable. If you have explored using or equipped your teams with it I have a couple questions:

- Does the Good Samaritan law cover the use of Narcan as well as CPR?
- Any other lessons learned or things that are good to know?

Thanks!

Dave

Dave Willard

Vice President, Clean, Safe and Outreach Operations
